## Audio Video Intercom for Access Control

**Audio Visitor Call Panel**

**Guard Phone**

# Models

**PE-7000**

**PE-7100**

**PE-7200**

**PE-7300**

**PE-7800**

**PE-7000:** Audio-video VCP with card reader

**PE-7100:** Audio-video VCP

**PE-7200:** Audio VCP

**PE-7300:** Audio VCP with card reader

**PE-7800:** Audio Guard Phone

# Feature Highlights

## Standard Feature Highlights (Audio Visitor Call Panel: PE7200 and PE7300)

1. True full-duplex natural conversation. Both parties can speak together.
2. **Auto hang up** when tenant hangs up his/her phone or time out.
3. **Cancellation of microphone coupled DTMF tone to prevent false/unauthorized access.**
4. Multiple VCPs can **shared single telephone line**. Other VCPs will show BUSY message if line is in used. Save telephone bills.
5. Flexible access control method: tenant's phone keypad, pincode, card access.
6. Programmable unit ID length: 1 to 10 digits.
7. Control up to 2 independent locking actuators.
8. 800 users.
9. Time stamping and call/event history logging.
10. 20x4 lines white-character LCD.
11. Digital-controlled LCD brightness, volume etc. No adjustment trimmers for ease of installation and maintenance.
12. Database downloading software (single VCP).

## Mechanical Design / Cosmetic Highlights

1. High-quality VFD- (vacuum fluorescent display) like LCD display.
2. High-quality and weather-proof aluminum backlit keypad.
3. Snap-on front panel mounting, **no screws** can be seen on panel.
4. High-quality stainless steel finish and weather-resistant construct.

## Value-added Features (optional)

1. **Call transfer** (two additional numbers per house unit).
2. Additional access method: grant access by caller ID (registered phone only).
3. Upgradable to 1800 users and 2800 users.
4. Individual lift floor access (requires lift interface board).
5. PE-Vista software: web-based Intercom management server to manage users database, call event logs and report generation.
6. Networking supported for ease of system management: LAN module or RS485 module.
7. Data modem for remote dbase downloading and programming.

# Feature Highlights

## Standard Feature Highlights (Gaud phone: PE7800)

1. Call transfer supported (outgoing call).
2. Caller ID supported (incoming call). Display tenant name and unit number on the LCD.
3. Incoming missed call logging.
4. Dedicated button to quickly access to missed calls.
5. VCP can call guard phone and guard phone can activate VCP's actuator.
6. 800 users.
7. 20x4 lines white-character LCD.
8. Digital-controlled LCD brightness, volume etc. No adjustment trimmers for ease of installation and maintenance.

## Mechanical Design / Cosmetic Highlights

1. High-quality VFD- (vacuum fluorescent display) like LCD display.
2. High-quality aluminum keypad.
3. Incline surface for ease of desktop viewing.

## Value-added Features (optional)

1. Upgradable to 1800 users and 2800 users.
2. PE-Vista software
3. Data modem for remote dbase downloading and programming.

# Use Case: Calling a tenant from VCP

1. Visitor enters the unit number on the VCP's keypad

```
Enter 4-digit unit #  
* to cancel call  
Unit #: [1282]
```

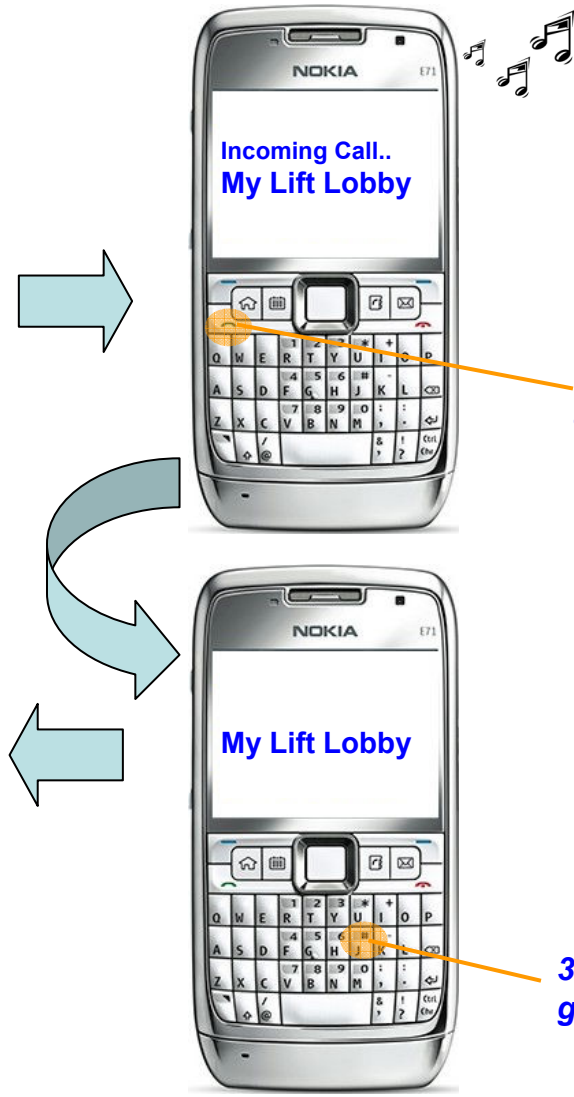

```
Enter 4-digit unit #  
* to cancel call  
Dialing 1282...
```

```
Unit #:1282  
Jake Dawson  
Time Avail: 119 V02
```

```
Unit #:1282  
Jake Dawson  
Access granted!
```

```
Unit #:1282  
Jake Dawson  
Access granted!  
Hanging up...
```

VCP's LCD Display

2. Tenant answers and talks to visitor

3. Press # to grant access

Tenant's Phone
